LE RE GA RD

*Portray emotions to serve
cultural discoveries*

A travers un regard on transmet des émotions et on peut même raconter une histoire.

Même si de nombreuses règles ont été établies pour réussir un portrait, mais selon moi il suffit d'aimer les gens et de leur témoigner avec un véritable intérêt.

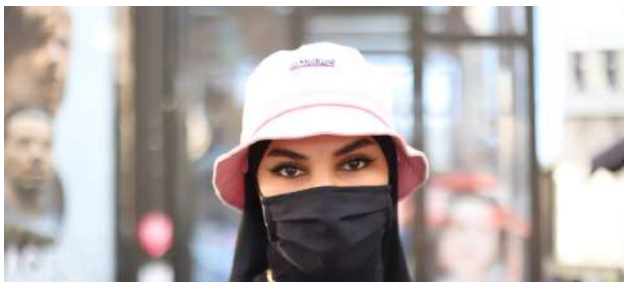

Through portrait, people transmit their emotions and tell me their story in file details.

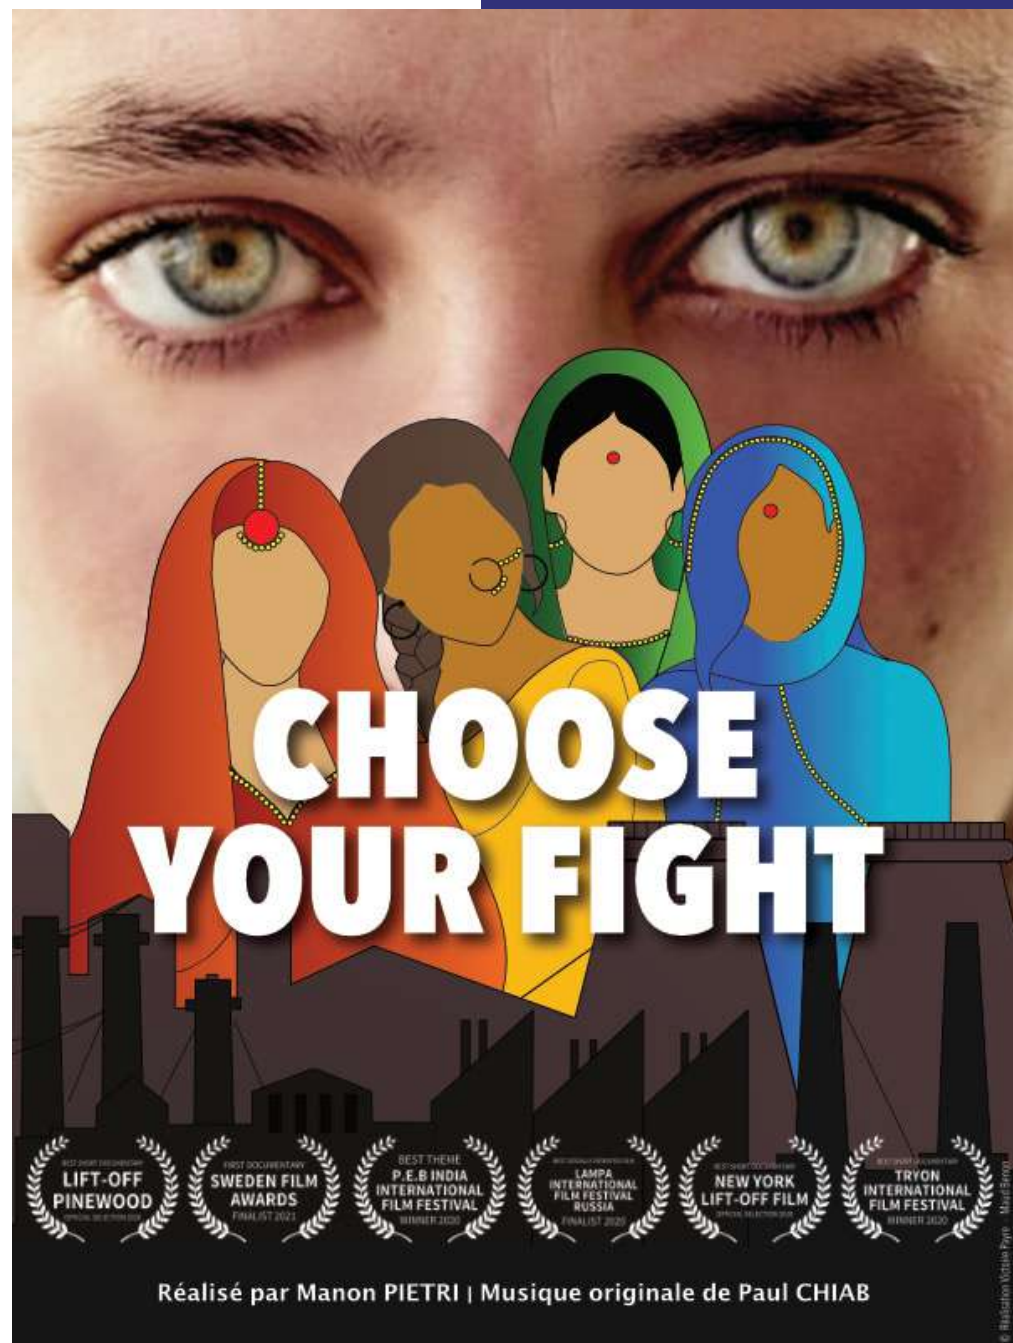

Several theories have been set to "succeed a portrait", I do not follow them. For me, the only rules that matter is to love people, and to show and imply a true interest in them.
